They say advices from different parts of the State are most encouraging, and urge them with an appeal to the people of small means money not to be content with idleness, but to add to it the moral and political weight of a huge majority. MORE OF TILDEN'S CIPHER.

The Attempt to Buy the Vote of South Carolina--Smith Weed the Purchasing Agent--How the Returning Board Raised their Price on him--$30 000, then $50,000 Finally $75 000--Tilden Agrees to Pay the Last Amount, If Made Contingent on the Result in March--Bargain Finally Closes for $30 000 for all the Electors--Tilden's Procrastination Defeats It.

On the 16th October the New York *Tribune* published the story of the South Carolina ciphers worked out by the table of keys which THE OREGONIAN has already fully explained. They make a more appalling story of fraud and corruption than that of Florida heretofore given. The following is a summary.

On the 10th of November 1876 Smith M Weed was in the Democratic committee rooms at the Everett House New York. On Monday the 13th, the South Carolina canvassing board perfected its organization and the same day Weed arrived on the field of action. His first telegram addressed according to custom to Havemeyer but undoubtedly intended for Pelton Tilden's nephew and manager was as follows

COLUMBIA November 13th A M

Here Things very much mixed. Intend to count us out. If a few dollars can be placed in the returning board it insures. What say you. Have news from Louisiana Oregon and Florida.

This dispatch was answered by Denmark "the nom de plume of Pelton. The New York branch was still without definite news from the other states and Weed's question about money was evaded.

Telegram received (A word illegible) Be Chile Louisiana gives $600 Florida one unless the count is out. Those states as well as Carolina are being closely watched. Advise instantly of progress and result.

Weed however presses this inquiry about money for the canvassing board.

COLUMBIA November 14th

Suppose you telegraphed me this evening here. Did you board adjourn until to-morrow. Answer to question asked this morning important to-night. Where do you want me to go and when?

Denmark's answer was

Telegram here. Remain with Hampton (in South Carolina) and exhaust every means to prevent trading. The expenses of what you do will be met. Keep fully advised often.

THOMAS

In the meantime the public had been led to believe that Tilden meant to conduct his South Carolina campaign entirely by the machinery of the law. While Weed was feeling around the canvassers, avowed counsel of the Democratic party were arguing in the state supreme court. Weed seems to have cared very little about these forensic contests. He continued his still hunt and before receiving Col Pelton's dispatch No 1 he put the following upon the wires.

COLUMBIA (S C) November 14th

To Henry Havemeyer 26 West Seventeenth street New York. If returning board can be prevented absolutely will you deposit of $30,000? May take less. Must be prompt.

THOMAS

Pelton's reply to this inquiry has not been found but the nature of it is plain from Weed's rejoinder.

COLUMBIA Nov 14th

Henry Havemeyer 1 West Seventeenth street New York. Dispatch received. Parties to report this morning. Chamberlain Kellogg and Stearns acting in concert, and intend mischief in every state. Will telegraph prospects soon. The situation desperate in all three.

Weed never flattered Tilden with assurances that he had carried South Carolina or any other doubtful state. While every Democratic paper was claiming that Tilden had carried South Carolina Weed dispatched very different sort of intelligence to Gramercy Park. It is to be remembered that Hampton himself only claimed a majority of 1 400 and then raised the following.

COLUMBIA Nov 14th

To Henry Havemeyer That seat is all can figure is that Tilden will be over 2 000 behind Hampton and see little hope. Shall keep up appearance. Capture Louisiana and Florida. What about Oregon? Answer.

THOMAS

Now comes the long delayed announcement of success.

COLUMBIA November 18th

Henry Havemeyer A majority of the Board have been secured. The cost is $80 000 to be sent as follows. One parcel of $50 000 one of $10 000 and one of $5 000 all to sent in $500 or $1 000 bills the notes to be deposited as the parties accept and given up upon the vote of the land of Hampton (a State of South Carolina) being given to Tilden's Electors. The three packages should be sent without inscription and to night. Unless you receive a telegram from me countermanding I shall try to secure everything by the plan of deposit. The friends of Hampton and Bavaria (?) are here in force and I fear the money and careful watching and intimidation of the board. For gods sake let it go if you can. Be safe in Florida or Africa. Do this at once and have the cash ready to reach Baltimore Sunday night. Telegraph decidedly whether it will be done.

The answer seems to have been somewhat tardy but Weed made his preparations to start and in the meantime the telegraphed again.

Shall leave to night for B. Meet me yourself if prudent. The returning board says they will do it sure, and it's worth trying, but the result is doubtful to my mind. Must get definite answer before 8 o'clock.

Weed did go to Baltimore. The further progress of the negotiations is traced by innumerable telegrams but Tilden's procrastination again prevented the closing of the bargain until too late and the result was announced.

A subsequent scheme was put on foot to capture the Legislature. The following telegrams were exchanged.

COLUMBIA Dec 3d

Colonel Pelton New York. The county canvassers return give the Republican electors a majority. These are believed incorrect and that the regular precinct returns will elect several Democratic electors. It is expected that the senate may unite with the Republican house and inaugurate Governor Morrow. May cause mischief which the courts cannot remedy. Hampton triumph depends upon the contingency of the senate's capture. Our votes are not specialties. Expect to raise in the state twice and a half time. Ten thousand dollars if you furnish it like amount more covering the money to be returned if unsuccessful. Must have answer in a day.

N. YORK Dec 4th

Will do as suggested if it will secure several electors. Act promptly.

This scheme also fell through for reasons too numerous to detail here.

EUROPEAN NEWS.

To go on the War Path

LONDON Oct 26.—The Daily Telegraph publishes a dispatch from Vienna that Austrian military preparations are so vast that nobody can doubt that they are bent upon further conquest. The only question appears to be whether she will wait till spring or recommence war before that time. The excuse will probably be the outbreaks of Bulgarians which were gotten up by Russian agents. A camp of 50 000 men is forming at Kischeneff to replace the troops who crossed the Balkans southwards. Russia refuses to evacuate Dobrudscha or Roumania until Roumania has concluded an offensive and defensive alliance. Russian agents openly claim that Moldavia as far as Coeth must become Russian.

An Attempt to Assassinate Alfonso

MADRID Oct 26.—As the king was driving through a street known as Callemay he (this sentence illegible) a blouse fired a pistol at him. The king was not touched and continued on his way to the palace amid the acclamations of the crowd. The man was immediately seized by soldiers and taken to prison. The would be assassin is named Juan Moncasi age twenty three a cooper and a native of Terragona. He states that he is a member of the International society and that his crime was premeditated. He arrived at Madrid Oct 20th. Moncasi was found with difficulty from some women who wished to lynch him.

The Dead Cardinal

DUBLIN Oct. 26.—The body of cardinal Cullen has been embalmed and removed to a private chapel. To morrow it will be placed in the Cathedral on Marlborough street where it will lie in state till Wednesday. A report is again freely circulated to day that Dr McCabe coadjutor bishop of the late cardinal will be his successor. The majority of citizens to be seen in the streets to day are wearing mourning.

The Bank of Glasgow Assessment.

LONDON Oct. 26.—It is believed that the call for £500 per share will exhaust the means of the smaller shareholders of the City of Glasgow Bank and throw the burden of the assessment upon the few wealthy. The assessment will be further increased as the bank itself held such amounts of its own shares that about four and a half million of the present call would have been assessed them. The first instalment of the present call is made payable on the 1st of December and 21 and 4th of February.

Still They Tumble

EDINBURGH Oct 26.—The bankruptcy is announced of John Innes Wright & Co of Glasgow and London. Wright is one of the imprisoned directors of the City of Glasgow Bank. He and his partner Wm Scott are heavily indebted to the bank on acceptances.

England's Humanity

CONSTANTINOPLE Oct 27.—The British minister energetically insists upon the execution of the convention between the porte and England abolishing the sale and importation of slaves. Layard demands the freedom of the slaves who recently took refuge at the British consulate.

WASHINGTON TERRITORY TRAGEDY.

ARREST OF TWO PERSONS CHARGED WITH THE MURDER OF HIGH AND HIS WIFE.

Under date of October 24th our regular correspondent writing from Port Townsend sends the following additional particulars of the recent terrible tragedy at Scow Bay.

After a most painstaking and careful investigation the jury impaneled in the case of the High murder found a verdict of murder against some person or persons unknown. It is generally conceded that the murder must have been committed by a white man of men as it had been Indians it is more than probable that the house would have been ransacked and the children perhaps slain also but as it was, everything seemed untouched in the house and the murder was evidently committed through revenge but by whom is the mystery which still remains unsolved. The officers of the law have been busy every effort to obtain a clue to the murderer and it is hoped that by the end they may be successful.

Later

October 2, 1878

Through the untiring exertions of Sheriff Miller two men have been arrested as the guilty parties. One of the men is a half breed named Charlie Caussen, the other is an Indian named Joe Davison. The accused were brought before Justice Learned this morning and remanded to the county jail until Monday next at 2 P M without bail. Too much credit cannot be given to Sheriff Miller for his unsparing efforts in working up the evidence in the case which it is thought will be quite successful in bringing the guilty ones to justice.

The children of the deceased were brought to this city yesterday and are being taken care of by charitably disposed persons here.

The number of deaths in this city in one week has been very unusual. On Wednesday the double funeral of the victims took place from the Presbyterian church, the services being conducted by the pastor Rev James Agnew. Next morning the funeral of George Swan an old boatman who had dropped dead the day before from heart disease took place in the same building on Thursday a little boy son of Mrs A W Davis of Wangenheim's old man died and on the Marine hospital. It is satisfactory to know that such an unusual amount of mortality is very uncommon in this city.

Evening Journal. On Friday evening October 18th C. Brumley a very promising young man aged 21 years and a few months a native of Lane county and son of J J Brumley died of typhoid fever.

MONDAY MORNING OCT 28 1878

THE LESSON OF INDIANA

At length the Republicans of Indiana have got their eyes open They have found out what is the matter It is a discovery that comes late, but fortunately not too late for future use and profit Instead of meeting the financial craze with a resolution that became them they have been coquetting or paltering with it They have never taken the firm stand for honest money which has been maintained by the Republicans of most of the other states An attempt has been made to occupy an equivocal position, to split the difference between the fiat folly and sound money and the result for several years has been just what always follows insincere and illogical efforts A letter from Indianapolis to the New York *Times*, giving an elaborate analysis of the political situation in Indiana, assures us that the Republicans of the state recognize their blunder now and will not repeat the folly which has cost them their ascendency in the state Every one of Indiana's delegation in congress supported all the propositions of the silver bill in their worst form, and not only this but the Republicans in the house voted to a man with the Democrats to repeal the resumption act, hoping thus to propitiate the fiat fanatics It was vain, of course The fanatics on instinct knew what party by its philosophy and its tendencies was against them and voted accordingly In consequence of the remissness of the Republican party to duty in Indiana, no timely effort was made to educate the people in correct financial principles Throughout the state the rage for sham currency was allowed to spread unchecked. Even Senator Morton during the last two or three years of his life, brave as he was in other directions, did not meet courageously this financial folly and Thompson present secretary of the navy, who for many years has written the platforms of the party in the state, was so weak as to yield in discussion on an important occasion with Voorhees the absurd claim that congress ought to issue something like a thousand million dollars in greenbacks "to meet the wants of trade" The simple truth is that the Republican party in Indiana is responsible for the existence of the National party there It has never attempted to oppose inflation theories which there have run rampant It has lost, as it deserved to lose, because it has not made a fight on conscience, on principle, and on common sense Only in one district was there a contest for the right and as it to emphasize the general lesson, that contest won That district was the first, heretofore Democratic by above one thousand majority The Republican candidate for congress was William Heiman, a German of ability and influence, who refused to acquiesce in the half hearted position assumed by his party generally, but repudiated sham money utterly, and boldly made his fight for financial honesty. To the astonishment of all time servers and shallow demagogues, he revolutionized his district It was a result achieved simply by an intelligent courage. The people will not long follow fools and pretenders when they can find men of sense and honesty to show them the way The *Times'* writer says "The Republican party of Indiana will hereafter be found in harmony with the party in the nation It has strayed into by and forbidden paths for the last time There will be no disposition to shirk the contest henceforward The compromising milk-and-water plans have been tried long enough. From every quarter the testimony comes that the party wants to get upon, and remain upon, the solid rock That honesty is the best politics as well as policy, is being recognized on every hand and by so much the party is in better and more hopeful condition than for years

AN INADEQUATE DEFENSE

The following is the defense attempted by the Albany *Democrat*, organ of the late state printer, against the findings of the legislative committee

THE OREGONIAN is hereby informed that the late state printer will carry the matter of printing into the courts and expects to be fully vindicated He has simply printed as Messrs Bush, Pittock McPherson et al have done and the law will vindicate him or knock the pins from under them all

This is disingenuous and insufficient Mr Brown has *not* printed as Messrs Bush and Pittock did The houses in the office of state printer, which have grown into frauds so great, began with sharpers who manipulated the business under McPherson who was not himself a printer and as he has since admitted was not possessed of the special knowledge requisite for the position. Since that time all the features of the system of fraud have been continued and others have been steadily added, until at length under Brown the printing was costing the state nearly double what it should have done, under honest execution and measurement of the work. Neither Bush nor Pittock spread a few words of matter over an entire page, neither of them charged the state with four reams of paper for every single ream used with press work, folding, etc, in the same system of quadruple fraud neither of them in printing reports charged for one thousand copies when only a fourth of the number were actually produced In fact under Bush and Pittock there was wanting every feature of the system which the legislative committee has recently condemned as fraudulent Had Brown executed the work as it was done by Bush and Pittock the committee would have made no report against him and against the expert, who hoped that what measure he should mete would be measured to him again, when he should become printer in his turn nor would the legislature have withheld the appropriation for the last lot of printing done by Brown with a view of obtaining for the state partial compensation for previous overcharges

The story told by the translation of the South Carolina ciphers is even more conclusive than the Florida revelations The account as presented by the New York *Tribune* enables us to follow the transactions clearly from the first offer of $80,000 for two or three electoral votes to the final closing of the bargain by which the whole vote of the state was to be transferred to Tilden in consideration of $200,000 The minutest details as to how payments were to be made Tilden's fatal procrastination and characteristic unwillingness to trust his agents almost prevented the execution of this unholy bargain As in the case of the Oregon vote it was insisted that payment should be contingent on the result in March that is on Tilden's inauguration The authenticity of the dispatches is beyond question Were it less conclusively established, proof enough would be found in the manifest qualities of Tilden's mind as shown in the negotiations. Great was his avarice, and at every step we see how afraid he was of paying for the presidency twice Every time his agents closed a bargain in one state he insisted on waiting to hear from the other, before sending the money The bargain was lost mainly because it took so long to decide which was most economical

There is a rumor at Washington that it is the intention of Democratic leaders to force an extra session of congress on the 4th March next Some of the Democrats of prominence, however, discredit it Aside from the doubts which many entertain as to the expediency of the party assuming immediate control and responsibility in both houses those who desire an extra session are averse to avowing their real objects, and have hitherto intended to plead extravagance of party estimates as an excuse for preventing action on some of the important appropriation bills next winter President Hayes and the cabinet however are understood to have determined to defeat this intention by keeping the estimates within the amounts of last session's appropriations and throwing upon congress the responsibility for past and future deficiencies There is not, therefore at present much probability of the forty sixth congress being convened in March but it is considered extremely likely that enough of the president's nominations will be pigeon holed in the senate to make a special session of that body necessary, in which event there will be of course a new distribution of all its offices for the immediate benefit of the faithful

We regret that Judge Shattuck has taken a resolution to retire from the bench To natural qualities which eminently fit him for a judge he adds long experience and possesses the respect and confidence, in a very high degree, both of the people and the bar The governor has designated C B. Bellinger, Esq to succeed him Mr Bellinger is a man of industry and culture As a journalist he has won distinction, as a lawyer he is favorably known, and as clerk and reporter of the supreme court he has much increased his credit Should he accept, we have confidence in his ability to prove himself a good judge It is a laborious and responsible position that is offered him and success in it depends much on quickness decision and sagacity in expediting business But Mr Bellinger possesses a judgment matured by study, practice, experience and observation and we entertain no doubt of his ability to fill the position while none who know him well will question that, if he assumes the duties of this important office, they will be discharged with conscientious fidelity

Not until appointments were made which are displeasing to them did the organs of Bourbonism discover that the new judiciary act was unconstitutional. Since then reasons against the act are plenty as blackberries Tony has taken "legal advice on the subject,—who suppose from Robert Shallow, esquire justice of the peace and *coram*, ay, and *custalorum* and *rotulorum* too whose opinion is that the act is unconstitutional, and who finds unconstitutional quite as good a word as accommodated —a lawyer-like word and a word of exceeding good command

Senate bill No 9 which became a law, is designed to secure a joint division of estates of debtors, who convey to assignees, for benefit of creditors No general assignment is to be valid unless made equally for benefit of all creditors Such assignment is to have the effect to discharge all attachments on which judgment is not taken In case of such assignment assent of creditor shall be presumed The act defines at length the duties of debtor and the duties and powers of assignee, and procedure in court after such assignment

"THE OREGONIAN is hereby informed" says the Albany *Democrat* that the late state printer will carry the matter into the courts." We had supposed it was the other way As we read the act of the legislature, the late printer is to be carried into the courts When one is at supper it makes some difference whether he eats or is eaten as Hamlet explains

MEFFORD PROCESS —Mr P Henderson who has the Mefford Process of curing fruit in the state left at this office yesterday specimens of cured pears and apples This process was patented in 1876 and has met with much success The fruit is first exposed for a certain time to the action of sulphurous gas and then placed in the drying or curing chamber One great advantage is that the whole fruit can be cured by this process with out being cut The gas arrests the vinegar fermentation and the heat to which the fruit is subsequently exposed cures it Fruit cured by this process it is claimed will retain for years the flavor it possesse when green By soaking the fruit over night it will be restored to the same condition as when picked from the trees Mr Henderson during the present season put up one of these curers at the farm of Mr Barlow in Clackamas county The fruit chamber is only six feet long six feet wide and four feet deep but this small machine has a capacity to cure about 50 bushels Mr Henderson meets with sufficient encouragement it his intention to construct next year a larger curer in this city

SAILS FOR EUROPE —Late on Saturday afternoon the bark *Prince Albert* drew out from Green rock wharf and was towed down the river Yesterday afternoon the *Adelbert* was towed away from Pacific wharf and moved away for Astoria We noticed on deck Capt Dwight of the *Freeman Clark* whose ship will probably cross the Columbia river bar to-day, the late northerly winds having made the bar very favorable for vessels of such heavy draft of water to cross A committee of shipmasters went down to Astoria yesterday morning, to visit and make report concerning the recently wrecked *City of Dublin* This iron vessel, though 25 years old was still staunch and an excellent sailer She has doubtless paid for herself many times over, and her record will go far towards establishing the superiority of iron over wooden ships

PORTLAND BETHEL —According to the compilation of a shipmaster present, not less than 300 persons were collected yesterday at the services held by this society on board the *Prince Louis* The commander cheerfully proffered the use of his ship and his officers made arrangements for the accommodation of the audience Its dimensions exceeded their expectations hence quite a number were without seats The interest of the people was evinced by their standing through the entire services One aged sailor convert dance coming to Portland gave an affecting statement of his experience Miss Martyn a well known friend to this work, also spoke and was listened to with great interest Many captains, officers and seamen were present and united to sing the hymns with great heartiness and marked familiarity

IMPORTANT RECOMMENDATIONS —The annual report of General Humphreys, chief of engineers, has just been issued A telegram says that it contains the following recommendations for appropriations Lower Willamette and Columbia rivers $150 000 upper Willamette $40 000 upper Columbia and Snake rivers $70 000 canal at the Cascades of the Columbia $300 000 These appropriations are just about the amounts necessary to be spent on our rivers for the next fiscal year It would be economy in the end if congress would allow these liberal sums, so that work might be rapidly pushed Much is lost in making appropriations in driblets The public interests demand that our delegation second the recommendations of the chief of engineers with all their energy and influence.

DESPERATE ESCAPED PRISONERS —We are informed by Capt Cresswell, of the little steamer *Canemah Norton*, that two escaped prisoners crossed the Sandy a few days ago He says that Keegan who runs the ferry on the Sandy crossed the persons about 9 o'clock Thursday evening These men were making toward Washington territory One, of them had on a pair of hat duffs, but the chain connecting them was broken The ferryman was alone and unarmed and did not like to tackle the fellows One of them inquired of the ferryman if he knew where a file could be obtained As soon as the men reached the shore they broke and ran There can be no doubt but that these men are escaped prisoners but where they are remains a matter of conjecture

SAILS FOR CHINA —To morrow the ship *Hercules* will sail for China with a cargo of flour etc, and 300 celestials who are going to revisit the scenes of their childhood The bark will call in at Honolulu having over 100 Chinamen for that place engaged by J McCraken & Co to work on the sugar plantations on that island

GRAIN FOR ENGLAND —The ship *Freeman Clark* is now lying at Astoria This vessel has received her full complement of grain and carries away 1 700 long tons of the golden cereal to England The cargo has been selected with great care by J McCraken & Co and is one of the finest dispatched this season

MEETING AT VANCOUVER — Last Friday evening Hon Thos H Brents, Republican candidate for delegate to congress from Washington territory, spoke at Vancouver to a very large crowd The meeting we understand, was a very enthusiastic one

RACES —This afternoon there will be a sweepstakes trotting race over the Riverside course, for a purse of $150 The following horses have been entered Mystery Pedro and Lamont An exciting contest may be anticipated

STEAMER TO SAIL —The steamship *Oregon* is announced to sail from this port for San Francisco next Thursday at 6 o clock A M She will take a full freight and a large number of passengers

WALKING MATCH —Thursday evening a walking match will come off between Prof Allen and C E Sherwood at the Olympic rink hall, E Ankeny's building for a purse of $500.

U S CIRCUIT COURT —Judge Deady will announce a decision this morning in this court in the case of Lloyd Brooke, a signee, vs Wm H Musgrove

ST VINCENT'S HOSPITAL

This institution was established about three years ago by the Sisters of St Vincent de Paul society a charitable organization of this city for the purpose of giving to persons suffering by disease or disabled by accident the advantages of the best medical skill and the care and comforts of a home. It is situated in the northern part of the city below the several malaria producing swamps and at a sufficient elevation to receive the healthful breezes of summer and to command a fine view of the city A full block is devoted to the main hospital building its out buildings and to pleasant garden walks where convalescent patients can take out door exercise A main building is three stories high with large basement as conveniently arranged in wards and cells and is in charge of ten sisters of Charity who devote themselves with earnest zeal to the work of caring for their unfortunate fellowbeings A representative of this paper visited the hospital on Saturday afternoon and was kindly shown through the place by the Sister Superior Here we found representatives of almost every nation and in almost every form of suffering In one cot in the first ward lay a poor fellow from The Dalles suffering the most terrible pains from inflammatory rheumatism In the same room lay a negro who owes his life to it alone as he has received there His is a most interesting case When brought to the hospital about two weeks ago he was suffering from a oblique inguinal hernia which had been strangulated for three days and had produced vomiting of the per cut and great pain which would shortly have resulted in death Dr Henry L Jones who is the principal physician of the institution cut down into the strangulated hernia opened the sac divided the strangulated part and reduced the intestine The patient is doing well and will soon be entirely well This operation is one of the most intricate known to surgery and its successful performance speaks volumes for the institution and for Dr Jones In another room we found eight sailors just recovering from scurvy that scourge that is carrying off so large a portion of the present

REV DR. CLARK writes

I have much pleasure in saying Fellows' Hypophosphites improved my general health surprisingly It gives a clear skin and healthy countenance but to know its virtues it must be used and were it within the reach of all classes I believe it would be used universal ly yes, by the well to renew their age and by the sick, to make them well. It makes an old person ten years younger 'This witness is true,' would that I could more widely make it known for its virtues.

ALEXANDER CLARKE, D D Amherst, N S

I heartily recommend Fellow's Compound Syrup of Hypophosphites to all troubled with any difficulties or diseases of the lungs or nervous system, believing that had I not used it I would not now be living HARRIS COFFILL, Windsor N S.

L FEURER

DR. A. M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh Bronchitis, and all diseases of the throat and chest; in an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including Spermatorrhea. Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without asking a question from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit the office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me will please beware of persons who may try to coax them away to other so-called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M BRENAN the *Medical Lecturer* and read his sign on his door

BEAUTY:

OR, THE

Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful

Is the one now in

Unfortunately not one woman in a hundred subjected to the whims of an American climate possesses that basis and starting point of real beauty —a pure and clear complexion. What nature has thus denied, art must be called upon to furnish It can be done It is done daily Prof W E Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effective manner. It removes tan sallowness, eruptions, redness blotches freckles, and pimples with magical power. It drives away all evidence of fatigue and excitement. It makes the plainest face beautiful. It gives the contour of youth, a dazzling purity and makes the neck, face, and hands appear graceful, rotund and plump. It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle

The Magnolia Balm removes all blemishes and conceals every drawback to beauty, and, while it can harm in no case, it is to life like in its effects that the closest observer cannot detect its use. Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM and we know of no other way It is the cheapest preparation in the world all things considered and may be had at any drug store
